## **Custom Golf Materials**

Old Bethpage, New York, May 1, 2010 – Custom Golf Materials announced today that they will enter into a core value partnership with the First Tee program of metropolitan New York. The first Tee is a program that reaches young people by providing learning facilities and educational programs that promote character development and life enhancing values through the game of golf.

“We consider it an honor to partner with the First Tee” said Greg DeRosa, President of CG Materials. “Golf has been a wonderful influence on my life. The core values taught by the First Tee help to create a solid foundation for the kids to build on. We are excited to contribute to such a wonderful cause”

Custom Golf Materials has been manufacturing construction materials for towns, schools and golf courses for over 30 years. We service over 800 customers throughout the metropolitan area. Our materials are primarily used for constructing and maintaining athletic fields and golf courses. All materials are tested regularly and conform to the ASTM and USGA guidelines available. More information about Custom Golf Materials is available at [www.cgmaterials.com](http://www.cgmaterials.com)
